Ready, Willing & Able to HELP?

Sudden Cardiac Arrest (SCA) Knows NO Boundaries!

In Australia approximately 30,000 people sustain a Sudden Cardiac Arrest (SCA) out-of-hospital and are treated by emergency medical services (EMS) each year.

That's 575 Australians suffering a SCA every week and ONLY 1 out of 10 WILL SURVIVE!

The Facts

- ♥ An average of only 10% of its victims in Australia survive!
- ♥ It can happen anytime, anywhere and to anyone, even young athletes.
- ♥ Early defibrillation is the single most effective treatment for SCA.
- ♥ Defibrillation within three minutes of collapse can increase the chance of survival to over 70%.
